

Background

Canada and Manitoba invest \$76.6 million in 17 projects to improve municipal transportation infrastructure

Joint federal and provincial funding through the Investing in Canada Infrastructure Program will support 17 municipal transportation infrastructure projects in Manitoba. These projects will create jobs, improve road safety, and ensure long-term sustainable infrastructure while building strong and well-connected communities.

The Government of Canada is investing over \$48.9 million in these projects through the Rural and Northern Communities Infrastructure Stream of the Investing in Canada Infrastructure Program. The Government of Manitoba is funding more than \$27.7 million. Project recipients, including municipalities and First Nations, are contributing over \$15.4 million in total towards eligible project costs for their respective projects, which overall represent a combined infrastructure investment of \$92 million.

Project Information:

Location	Project Name	Project Details	Federal Funding	Provincial Funding	Recipient Funding
Brandon	Keystone Centre Parking Lot Resurfacing	Excavate, resurface, and perform associated line striping of the Keystone Centre parking lot	\$180,536	–	\$270,804
